The Memory Foam Topper Comfort way

It is our combination of chemistry, process manufacturing, customer service and logistical knowledge that makes us a world leading flexible foam supplier of choice.

'Bed in the box' is one of the latest trends within the bedding industry.

Our capabilities extend to all aspects of conversion, assembly and delivery of rolled packed mattresses and pillows – so we can be your one-stop-shop.

Our Bedding Innovation Centre, located in the UK, enables customers to become development partners in creating a healthy/unique sleep experience, while improving durability and researching the key requirement of sustainability.

Our market leading innovations create comfort, deliver performance and enhance everyday life

- ▼ **One Stop Shop** - reliable and fully controlled **end to end supply chain**, from raw material to end OEM production and distribution.
- ▼ **Tailormade portfolio** - we have a **wide portfolio** of special foams made for fast recovery and airpermeability products.
- ▼ **Reliable partner** - The Vita Group is a leading provider of value added and differentiated flexible polyurethane ("PU") foam products. Our 72 years of experience makes us **reliable partners** for all bedding needs.
- ▼ **Automated production system** - our automated production line and the **state-of-the-art micro-packaging** equipments can reduce the logistical costs and increase the production efficiency.
- ▼ **European footprint** - our EU manufacturing units enables us to send our products via different transportation modes (road, ship or air freights).
- ▼ **Sustainable foams, sustainably packaged** - a wide range of **sustainable foam** options to choose from.

Our European manufacturing facilities enable an efficient local supply and delivery network

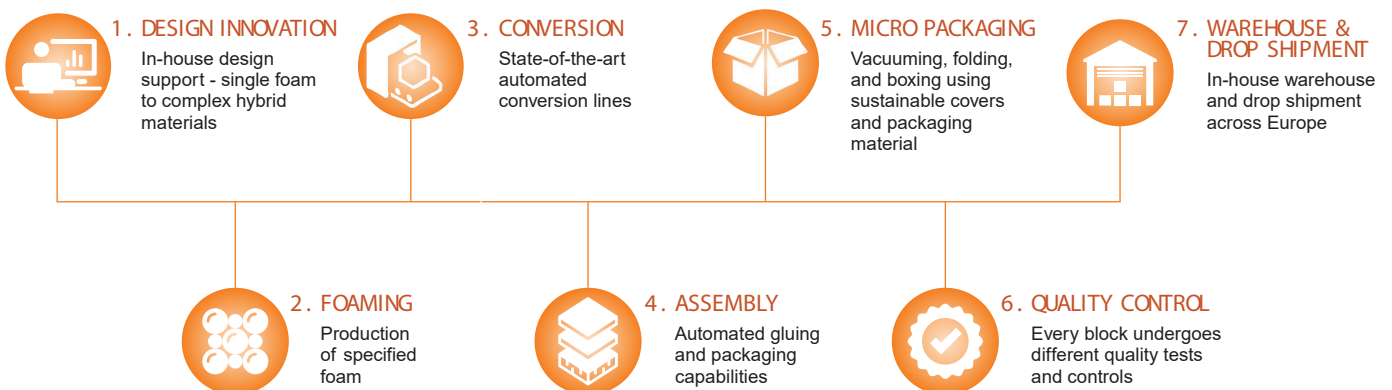

Our network of specialist mattress centres across Europe enables rapid assembly of foam layers to create a **bespoke complete mattress** as per our customer's specifications.

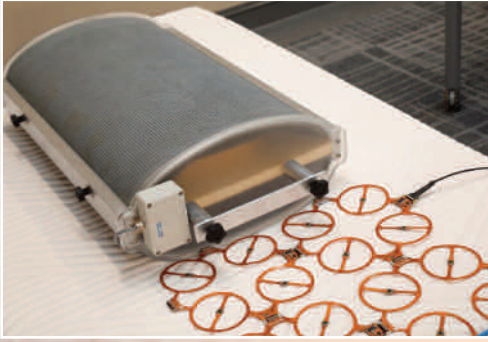

Our **state-of-the-art conversion equipment** means we can tailor to your requirements; CNC cutting enables any kind of cuts, comfort zones or patterns in the mattress block.

All assembly lines are automated, which reduce the lead time and **increase efficiency**.

WORKFLOW PROCESS

We develop the very best solutions for a wide range of customer applications

The Vita Group has a long heritage of exploring sustainable options and, in 2000, became the first in Europe to manufacture flexible foams using **sustainably sourced polyols**.

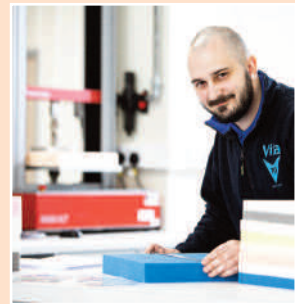

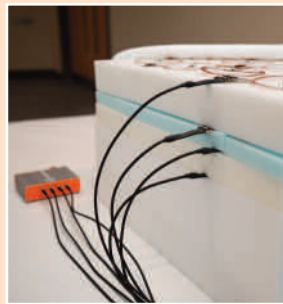

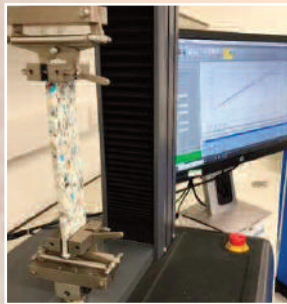

Our capabilities extend to all aspects of conversion, assembly and delivery of mattresses – so we can be your **one-stop-shop**.

Our **Bedding Innovation Centre** located in the UK enables customers to become development partners and ensures we are ready to capitalise on emerging trends, we invite our customers to see new products being developed and tested in real-time.

VITA BEDDING INNOVATION CENTRE TESTING

- ✔ Durability testing
- ✔ Compression testing
- ✔ Pressure mapping
- ✔ Tensile testing
- ✔ Displacement mapping
- ✔ Temperature and humidity mapping

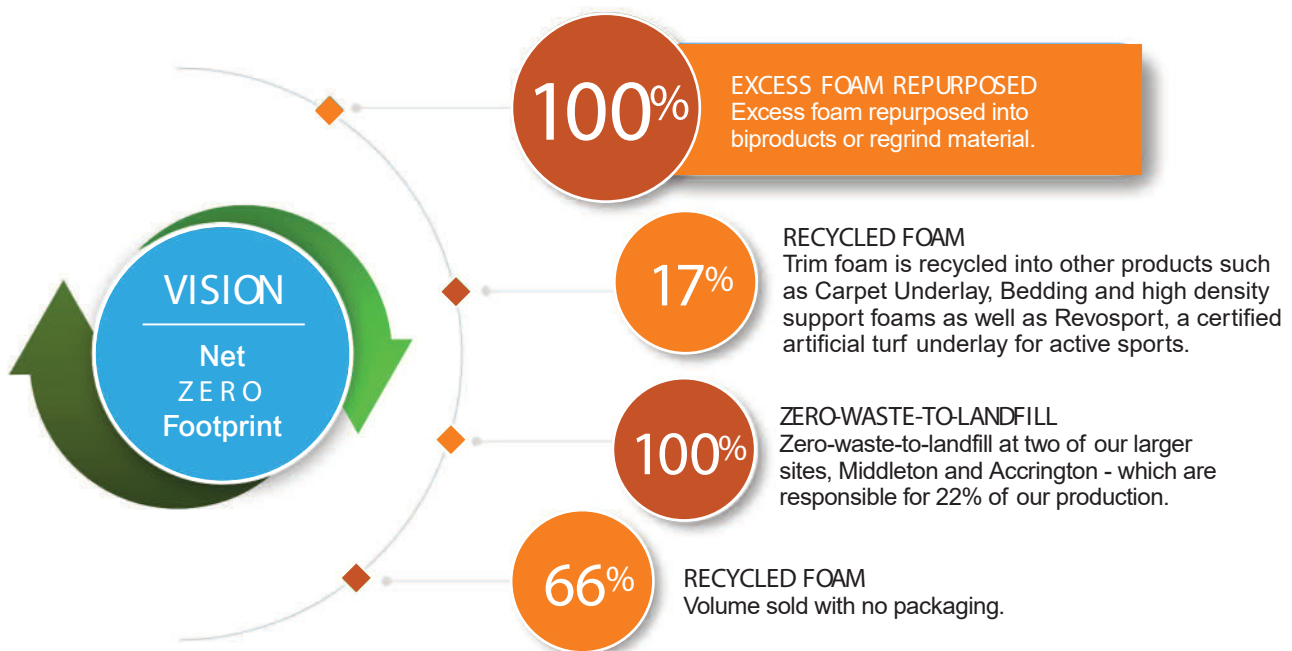

#innovation

We aspire to be the leader in innovation and sustainability in the flexible PU foam industry

At The Vita Group, **we continuously invest** to ensure we can sustainably deliver the very best solutions for our customers and future generations.

As a responsible, resourceful and safe business we commit to and invest in **reducing waste, increasing recycling and reusing raw materials**, and **conserving natural resources** in pursuit of a net zero footprint.

Vita's family of **sustainable products**, based on polyols sourced from plant-based renewable sources and recycled post-consumer foam mattresses.
